To Whom It May Concern:

Why Join?

The importance of joining the Fennimore Area Chamber of Commerce is to build relationships within our community and region. We offer fun events throughout the year, which members can either assist in the planning of or attend as a member to build their personal networks and find out for themselves what is important in the community. I always think of a chamber membership as an investment - one that you get out of, what you put into it.

As a media partner, I work to provide information that is relevant to their business types so that we can build marketing campaigns which are cost effective and assist with driving business to local members. Please consider joining the Fennimore Chamber of Commerce today.

Sincerely yours,

Denise Deaton-Tolzman
